DETAILED ACTION

Election/Restrictions

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - Claims 1-7 and 15-20, drawn to an exposure method, classified in class 430, subclass 394.
 - II. Claims 8-14, drawn to a mask fabrication method, classified in class 430, subclass5.

The inventions are distinct, each from the other because of the following reasons:

- 2. Inventions of Group I and Group II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different functions. The invention of Group II is used to make a mask, which is used to imprint patterns onto underlying wafers. The invention of Group I utilizes stages and lenses to make integrated circuits, which are used in electrical equipment.
- 3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
- 4. A telephone call was made to Mr. Ronald Kananen on June 14, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Application/Control Number: 10/603,689 Page 3

Art Unit: 1756

5.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Saleha R. Mohamedulla whose telephone number is (571) 272-

1387. The examiner can normally be reached on M-F (8:00 to 4:30). The fax phone number for

the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent

Application Information Retrieval (PAIR) system. Status information for published applications

may be obtained from either Private PAIR or Public PAIR. Status information for unpublished

applications is available through Private PAIR only. For more information about the PAIR

system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR

system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
